KB113181 - KBA-12268-Q1Y0J7 – Connect.ini configuration

The local workstation's (C:\Program Files\SIMS\SIMS .net) connect.ini can be amended to have its own unique/individual connect.ini. Or, alternatively the connect.ini that you have centrally set up can be amended.

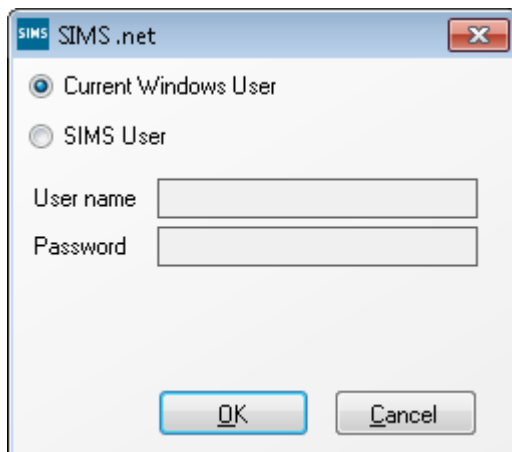

Connectiontype=TrustedAuto

The above line should be used if you wish to be automatically logged into SIMS .net using a trusted account.

ConnectionType=Trusted

The above line should be used if you wish to be prompted for an option before logging into SIMS .net.
